Divine Essence

Bring a little quiet to your day with Aroma Vera's *Agarwood Serenity* collection. This fragrance leans into warm agarwood character – a precious resinous heartwood that has long been treasured in Southeast Asia for its health properties and perfume possibilities. The Hong Kong aromatherapy pioneer smooths out the aroma's edges with a gentle, skin-friendly blend that feels grounded, not overpowering. It's the kind of scent you reach for when you want cosy confidence – whether you're heading to work, winding down at home, or trying to make a rainy moment feel softer. Realistic, wearable and easy to love, Agarwood Serenity settles close and lingers long enough to feel special. aromavera.com.hk

Sitting Room Only

Experience the perfect blend of panache and relaxation with Poliform's *Owen* furniture designed by French architect Jean-Marie Massaud. Whether a sofa or armchair, these Mid-Century-inspired pieces feature fluid, harmonious curves supported by a sturdy wooden base. Upholstered in either plush fabric or sleek leather, they invite you to sink in and unwind. Organic contours add a touch of natural sophistication, adding an artistic flair to your sitting room. The standout feature is the sculptural backrest that folds onto itself like a Möbius strip, creating a seamless transition into the armrest. It offers both comfort and architectural beauty, making it an ideal choice for modern interiors that crave personality and elegance. poliform.it
